DETAILED ACTION

Claims 1-43 are pending in the instant application. Preamendment filed 03/11/2002 (paper #2) and IDS filed 04/12/2002 (paper #3) have been entered.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-40, 43, drawn to an experimental animal, classified in class 800, subclass 9.
- II. Claims 41, 42, drawn to a medicine, classified in class 424, subclass 9.1.

The inventions are distinct, each from the other because of the following reasons:

Group I is directed to experimental animals, while Group II is directed to a medicine that is classified differently, and is structurally and functionally distinct from the experimental animals of Group I. The medicine of Group II encompasses any one of various different materials that are distinct from the animals of Group I.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Further, the search required for Group I is not required for Group II and vice versa, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sita S Pappu whose telephone number is (703) 305-5039. The examiner can normally be reached on Mon-Fri (8:30 AM - 5:00 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dr. Remy Yucel can be reached on (703) 305 1998. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 308 4242 for regular communications and (703) 872 9307 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the patent analyst, Tracey Johnson, whose telephone number is (703) 305-2982.
